Sometimes in life, one comes across a solution to a problem which is a win win scenario for all of those concerned.

We at Hamiltons have always sought to provide the home owner with a solution to the UK Inheritance Tax problem. We want to provide our home owner clients with total flexibility and as many advantages as possible within a tax effective structure.

A New Equity Release of Life

Do you own a mortgage free property in the UK worth more than £300,000? If so be prepared to pay the Tax Man 40% of its value over £300,000 when you pass it to your next of kin. The Chancellor calls this Inheritance Tax. We call it a Voluntary Tax. Why do we call it Voluntary? Because it is a Tax that does not have to be paid as long as you plan!

Our revolutionary new product provides just that, it gives you, the home owner/s, an income from the property during your life time. At the same time it gives you the flexibility to sell, upgrade or even downsize to suit your personal circumstances. Yet it does not affect your next of kin's inheritance, in fact it will allow the asset to pass without potential liability to Inheritance tax at all.
